SUBJECT: Proposition 65 Compliance for pre-cast concrete items:  
Labels for display, including bin tags, product signs & price signs.

Dear Customer in California,

California requires that consumers see the appropriate Proposition 65 warning before they purchase products governed by this regulation. We provide you with many products having labeled packages which bear warnings that satisfy the regulation. We also provide you with products for retail sale which do not have unit labels. These are pre-cast manufactured items such as: pavers, segmental retaining wall blocks, and concrete masonry units. We have attached the list of products we provide to you. Please inform us if any items are missing from the list. California requires that you post the warning where the pre-cast products are located in your stores. The warning should be posted at the point of sale if customers order without seeing the product on display.

The OEHHA Proposition 65 regulations require that we now provide you with this notification regarding these products and that you acknowledge receipt. Please confirm by email your receipt of this notification.

Please let us know if you require any additional adhesive labels for display. We will supply as many as you require and will resupply you during the year. Alternately, you may print your own labels using the text required by California Proposition 65, which is shown on the attached document.

Please contact me or your usual QUIKRETE® or PAVESTONE® representative with any questions.

Sincerely,  
Rich Braun  
Vice President
